

## City of Fort St. John

### Roads Superintendent

Fort St. John, ([www.fortstjohn.ca](http://www.fortstjohn.ca)) strategically located in British Columbia's north east region, is well-known as the ***Energetic City***. This title reflects not only the large resource base of oil, natural gas, forestry and agriculture, but also the vitality of the residents who are keen to live and work in a community that gives back so much. Recognized globally, Fort St. John also attracts people due to the communities' close access to spectacular wilderness and eco-adventures, as well as world class hunting and fishing. The City features excellent year-round sports facilities and more amenities than cities many times its size. Today, more than 19,000 people, mostly young families, call Fort St. John home. Located in the heart of majestic Peace River country, the City is the largest regional service center in north eastern BC, servicing over 60,000 people in the area. To achieve its mission of efficiently providing services that enhance the quality of life for all of its residents and visitors, the City of Fort St. John is looking to attract an experienced Roads Superintendent to round out the Public Works management team.

Reporting to the Director of Public Works and Utilities, and leading a team of dedicated works professionals, you will hold responsibility for planning, scheduling and implementation of budgeted maintenance, operation and/or construction programs of the Roads Maintenance crews within the Public Works & Utilities Department. As Roads Superintendent, you will hire, supervise, train, evaluate and direct employees engaged in the day to day operations. Specific responsibilities include; preparation, installation, maintenance and repair of municipal roads (sidewalks, curbs, gutters, open drainage systems, lighting, traffic signals, signs, gravel pit); fleet repair and management; storm water management and related infrastructure including those associated with residential solid waste collection and disposal and bus stops.

To qualify you will have a diploma in Civil Engineering Technology plus three to five years in a supervisory or management role within a consulting and or municipal setting with experience in public works design and or road construction or maintenance. You have demonstrated experience in project management and crew supervision with thorough knowledge of heavy equipment and operation. You are comfortable with design, construction and maintenance of municipal engineering projects and services. You are a visionary leader with impeccable report writing skills with tested strengths in articulating the long-term vision for municipal infrastructure. Known as a communicator, you are respected for your strong problem-solving ability, keen decision making, well honed customer service focus and exemplary people management skills. You are recognized for your positive corporate contribution.

If you are self motivated, enjoy both responsibility and accountability and are ready to join one of British Columbia's most progressive municipalities, please forward your resume in confidence, quoting assignment FSJRS, to **Grant C. Smith, CHRP**
